

Jaya Krishna Pavan Mummaneni

As a dedicated software developer, I specialize in creating innovative solutions that drive success. With a strong base in web development, I have a experience of doing websites on time and within the given timeframe and resources

Projects

NutriMap & Smart Comparison

Jan 2025 – Mar 2025

- Developed an interactive web app to visualize nutritional content of food using charts and maps.
- Integrated APIs for dynamic data fetching and real-time updates.
- Enhanced user experience with responsive UI and data filtering capabilities.

AI Chatbot – Context-Aware Assistant

Sep 2024 – Dec 2024

- Built a conversational AI chatbot using NLP to handle user queries contextually.
- Implemented memory-based conversation flow and real-time suggestions.
- Integrated chatbot into a React interface for seamless interaction.

Space News – Real-time Space & Astronomy Updates

Feb 2025

- Created a web platform to display space-related news and NASA media feeds.
- Utilized space APIs to fetch images, launch info, and updates in real time.
- Designed a sleek, dark-themed UI for an immersive user experience.

Educational Background

Mallareddy University

B Tech

2022- present

Currently studying Computer Science Engineering

Narayana Jr College

Intermediate

June 2020 - March 2022

Studied MPC (Maths Physics Chemistry)
